Judging by Size.

The Georgians of Augusta are chuckling over a new story about Mr. Taft, who drove out one afternoon to see a Georgia planter. The planter's cook, a very old woman, takes no interest in public affairs, and she did not recognize the portly guest.

"What did you think of that gentleman, Martha?" the planter asked, after Mr. Taft had driven off.

Well, sir," old Martha replied, "I can't say as I saw nothin' pertickler about him. He looked to me like the kind of man as would be pretty reg'ler to his meals."-Louisville Times.

A Slight Boost.

"Excuse me, sir," began the faithful clerk as he paused in front of the railing behind which the boss was seated. "but I would-er-like an increase in salary."

'Oh, you would, eh?" rejoined the "Well, I'm willing to do the right thing, so I'll pay you the same I paid you for 366 days in 1908. Good morning."

Deafness Cannot Be Cured

by local applications, as they cannot reach the discased portion of the ear. There is only one way to
cure deafness and that is by constitutional remedies.
Deafness is caused by an inflamed condition of the
nuccus thing of the Eustachian Tube. When this
tube is inflamed you have a rumbing sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be
taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases
out of ten are caused by Catarrh, which is nothing
but an inflamed condition of the nuccous surfaces.

To Help Good Roads Movement. The engineering department of the University of Kansas has decided to join the good roads movement, From now on it will be equipped to give the

benefit of its testing laboratories to the countles and cities in the state on road materials and methods. A bulletin will e published soon by the department, giving the standard tests on more than 200 samples of limestone from the eastern half of the state. The regents established a testing station here about year ago, but up to this time there have been no funds to publish the results of the tests that have been made. The tests in the first bulletin are of stones available for macadamizing, of which there is practically an unlimited

An Anti-Fly Campaign, The state board of health is about to start a new campaign against the fly. Large posters are being printed, showing pictures of how the fly carries germs. Inside the border of the picture are printed some rules about how to get rid of the fly and how to prevent it from carrying germs to the food. The poster gives the rules of the board of health concerning flies about food products for sale and urges the people of the state not to make purchases from merchants who do not properly protect their stocks against the insects. It also urges that all refuse piles be cleaned up. The posters are to be distributed throughout the state and posted in public places.

Charges Against Kansans. Sensational charges of attempted railroad wrecking are contained in a suit filed in the district court at Denver against Frank E. Grimes, Topeka; Otls Hungate, Topeka; Nees Olson, Wichita; B. F. Young and F. H. Tillottson, Kansas City; A. M. Stevenson, Denver, and Wilson I. Devenny, Loveland, Col. Suit is filed by the Denver, Laramie & Northwestern railroad, under construction by Kansas capitalists, and the Northwestern Land and Iron company. The defendants are charged with conspiring to throw both concerns into the hands of a receiver with a view ultimately to obtain control of it themselves.

Trees in Court House Yard.

The county commissioners of Rooks county have contracted with S. B. Parks for the setting out and the cultivation of 250 trees in the court house yard in Stockton, and the work has already begun. It is intended by the board that Rooks county shall have the finest court house yard in the western part of the state. The varieties being set out are Carolina poplar, white elm, sycamore and honey locust. The ground has heretofore grown to weeds and alfalfa.

missionary, discoursing upon India, told of a woman who had come to her complaining of a very sore back and desired that she pray for its cure. This Mrs. Jackson did, but the woman again appeared before her and declared that the back was still in a bad condition. Mrs. Jackson advised the use of an application of iodine, and brought out a bottle of the drug to apply upon the afflicted part of the woman's anatomy. But she regarded the bottle suspiciously and acted as though it would hurt her were she to use it. To allay her fears upon this score Mrs. Jackson applied some of the drug to her own finger and showed her that it would not burn, and that she had better allow her to put some of it upon her back.

"But," said the woman, "It would do no good."

"How so?" inquired Mrs. Jackson, sympathetically. "Because," replied the woman, "it is
